

## About Beth...

Beth Waite is a certified speech-language pathologist with 24 years of experience working with people with severe disabilities. She has been certified by [RESNA](#) (*Rehabilitation Engineering and Assistive Technology Society of North America*) as an Assistive Technology Professional. Beth has presented over 100 workshop sessions at the local, state, and national level. She provides support for educators and students with learning disabilities and those on the Autism Spectrum, developmental preschool classrooms, and programs designed for children who are medically fragile

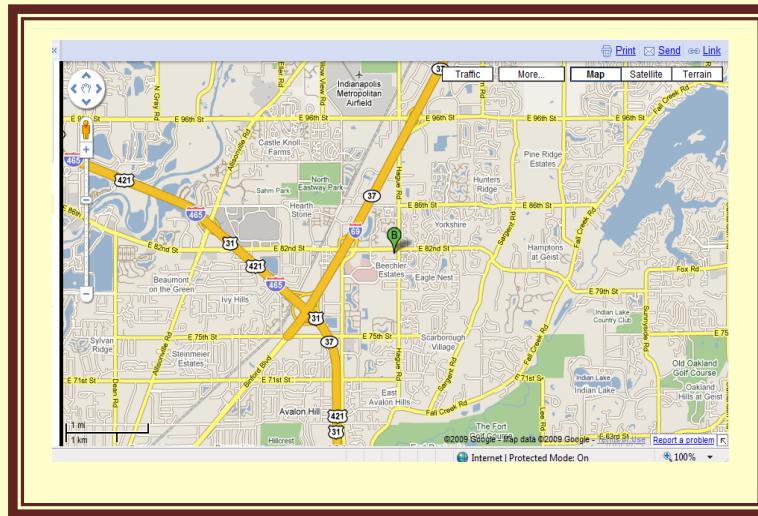

### Watch for these exciting sessions:

“Switch 101: How to set up your computer for a child with physical limitations”.

“Switch It Up: Switch use beyond cause and effect”.

“Video Modeling: How to script, shoot and edit video clips for social skill development.”

**Location: Faith Presbyterian Church  
8170 Hague Rd  
Indianapolis, IN**

Would you like to have a workshop closer to home? Contact Beth to request a workshop for your next event or suggest a location in your neighborhood.

## Using iPods/MP3 Players as assistive technology tools

Come learn how iPods/MP3 players can help students with disabilities increase social skills and gain access to the curriculum. Students with Learning Disabilities, Autism, Physical and Developmental Disabilities can benefit from this commonly used technology!

## Workshop Description

This workshop has been designed to show educators and parents how easy it is to turn iPods/mp3 players into assistive technology tools to help students with disabilities. By attending this training you will learn:

- ✓ The difference between iPods and MP3 players.
- ✓ How to use free software to record information and then transfer it to the MP3 player.
- ✓ Ideas for improving social skills and reducing anxiety for students on the autism spectrum.
- ✓ How to create access to curriculum materials.

*This Saturday workshop is offered in response to the interest generated from the session in September*
